

LightRider Sizing Chart

To check the correct size for a LightRider Bitless Bridle, please take the following measurements using a piece of string or flexible tape:

1 – Around the nose (3-4 fingers below the cheekbones where a cavesson sits above the nostril cavities – as shown at 1a).

2 – Over the poll (head) from and to each side of the noseband.

You can use your horse's halter noseband as a guide, remembering the bridle may sit a little lower than a halter.

LightRider Bitless Noseband (measure nose only)

Mini	Pony	Cob	Full	Warmblood +Draft
To 35cm 13.5"	41-56cm 16-22"	50-60cm 20-24"	54-64 cm 21-25"	55-67cm 21.5" – 26"

English/Stock/Western	COB	FULL	WARMBLOOD/Draft
NOSE	50-60cm 20"-24"	54-64 cm 21"-25"	55-67cm 21.5"-26"
HEAD	77- 99cm 30"- 39"	84 -108cm 33"- 42.5"	104 -116cm 41"- 45.6"

Rope LightRiders	COB	FULL	WARMBLOOD/Draft
NOSE	50-55cm 19 ½ - 21 ½ "	54-63cm 21- 24 ¾ "	63-72cm (24 ½"-28")
HEAD	88-108cm 34 ½ - 42"	96-112cm 37 ½ - 44"	106-130cm (36"-51")

Rope LightRiders	MINI	SMALL PONY	PONY
NOSE	33-39cm 13-15"	40-45cm 15 ½ -17 ½ "	45-50cm 17 ½"-19 ½ "
HEAD	65-75cm 25 ½"-29 ½"	70-80cm 27-31"	80-90cm 31"- 35"

General height recommendations:

Mini: up to 9hh

Small Pony: 9-11hh

Pony: 11-14hh

Cob: 14 – 15hh (some heavy cobs may need full size)

Full: 15.1 – 17hh (includes some warmblood breeds unless very heavy)

Warmblood/Draft: 17.1hh + (Draft breeds that are shorter ie: from 15.2hh may need this size.)
